

CONFIDENCE AT ANY SPEED

3M™ Splittable Flying Splice Tape 8387

ACCELERATE YOUR BUSINESS

MAKE THE SPLICE. CONSISTENTLY.

Presses are running faster and faster, so reliability in your tape is critical. Unsuccessful splices are not only inefficient but can also be very costly. At 3M, we're passionate about solving challenges. For you, this means you have access to the most innovative tools and on-the-ground support to keep your projects moving smoothly, on any surface, with confidence.

GET THE BEST FROM YOUR PRESS.

Maximize speed

Keep your presses running at higher speeds so you can get the best from your press with consistent results.

Optimize surface adhesion

Splice even the most challenging substrates, such as:

- Polyethylene
- Biaxially Oriented Polypropylene
- Cast Polypropylene
- Polyester
- Aluminum Foil

Minimize contamination

Save cleanup time and money by reducing tab debris and fiber contamination on your central impression (CI) drum and rollers, as well as eliminating the hazards of using glue.

PULL OUT ALL THE STOPS.

- Fiber-free breakout mechanism

Takes imperfections out of the picture for consistent print quality

- Full back adhesive

Lays flat for easier handling and there are no small pieces that can break off and stick to the CI drum

- Highly visible colors

Multiple colors make tape more visible during conversion

- Layers together
- Under laminate (tabbing side)
- Over laminate (splicing side)

- Film, not paper

Stronger construction giving you greater confidence for a clean, successful splice

“ We typically try to splice at speed, that’s why proper tape is very important. Because, even when slowing down you’re losing time and money. ”

— Print Manager

ACCELERATE YOUR BUSINESS

EXPECT THE BEST FROM US. IN FACT, YOU CAN COUNT ON IT.

We aren't just a bunch of scientists and engineers in a lab. We're out in the field: training, troubleshooting and, more importantly, listening. What keeps you up at night keeps us working harder. 3M is committed to helping you maximize productivity and increase profits with access to our greatest resource available: our people.

Ideas that work.

For over 35 years, 3M has been bringing fresh thinking to the flexographic printing industry. We understand your needs and how unique the challenges are that you face with every run. Built upon our determination to always find a better way, we are not satisfied until we have uncovered industry-changing solutions that give you the speed, control and support that you need to be successful.

We are your single source for mounting and splicing products.

Take the flexo challenge to see how 3M™ Cushion-Mount™ Plus Plate Mounting Tapes, L-Series, and 3M™ Splittable Flying Splice Tapes can improve your efficiency. Call 800-362-3550 or go to www.3M.com/print and put our tapes to the test.

Warranty and Limited Remedy: 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. If the 3M product does not conform to this warranty, the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price. **Limitation of Liability:** Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted.
